CASE BASED QUESTIONS (4x3=12)		
34.	Read the source given below and answer the question that follows: Many nationalists thought that the struggle against the British could not be won through non-violence. In 1928, the HSRA was founded at a meeting in Ferozeshah Kotla ground in Delhi. Amongst its leaders were Bhagat Singh, Jatin Das and Ajoy Ghosh. In a series of dramatic actions in different parts of India, the HSRA targeted some of the symbols of British power. In April 1929, Bhagat Singh and Batukeswar Dutta threw a bomb in the Legislative Assembly. Bhagat Singh was 23 when he was tried and executed by the colonial government. During his trial, Bhagat Singh stated that he did not wish to glorify 'the cult of the bomb and pistol' but wanted a revolution in society. 34.1 What did HSRA stand for? 34.2 What was the philosophy behind the founding HSRA? 34.3 Bhagat Singh and his fellows attempted to blow up a train in 1929. Who was travelling on that train?	1 2 1
35.	Read the given extract and answer the following questions: The government has launched a major road development project linking Delhi-Kolkata-Chennai-Mumbai and Delhi by six-lane Super Highways. The North-South corridors linking Srinagar (Jammu & Kashmir) and Kanyakumari (Tamil Nadu), and East-West Corridor connecting Silchar (Assam) and Porbander (Gujarat) are part of this project. The major objective of these Super Highways is to reduce the time and distance between the mega cities of India National Highways link extreme parts of the country. These are the primary road systems and are laid and maintained by	

	<p>the Central Public Works Department (CPWD). A number of major National Highways run in North-South and East-West directions. The historical Sher-Shah Suri Marg is called National Highway No.1, between Delhi and Amritsar. Roads linking a state capital with different district headquarters are known as State Highways. These roads are constructed and maintained by the State Public Works Department (PWD) in State and Union Territories.</p> <p>35.1. To what extent do you agree that the Golden Quadrilateral Super Highways are important for our country? Give only one aspect.</p> <p>35.2. Discuss the role of NHAI in India.</p> <p>35.3. Evaluate the importance of State Highways.</p>	<p>1</p> <p>1</p> <p>2</p>
<p>36.</p>	<p>Read the given extract and answer following questions:</p> <p>The Census of India records the religion of each and every Indian after every ten years. The person who fills the Census form visits every household and records the religion of each member of that household exactly the way each person describes it. If someone says she has ‘no religion’ or that he is an ‘atheist’, this is exactly how it is recorded. Thus we have reliable information on the proportion of different religious communities in the country and how it has changed over the years. The pie chart below presents the population proportion of six major religious communities in the country. Since Independence, the total population of each community has increased substantially but their proportion in the country’s population has not changed much. In percentage terms, the population of the Hindus, Jains and Christians has declined marginally since 1961. The proportion of Muslim, Sikh and Buddhist population has increased slightly. There is a common but mistaken impression that the proportion of the Muslims in the country’s population is going to overtake other religious communities. Expert estimates done for the Prime Minister’s High Level Committee (popularly known as Sachar Committee) show that the proportion of the Muslims is expected to go up a little, by about 3 to 4 per cent, in the next 50 years. It proves that in overall terms, the population balance of different religious communities is not likely to change in a big way.</p> <p>36.1. What do you mean by atheist?</p> <p>36.2. How much growth rate of Muslim population fall in compare to last decadal census?</p> <p>36.3 What did happen in population proportion of six major religious communities in India since Independence?</p>	<p>1</p> <p>1</p> <p>2</p>
